### Passage 3.

My village is generally called Langde which consists of Upper Langde and Lower Lane. My own village is Upper Langde, 32 kilometers away from Kaili city and 17 kilometers away from Leishan Country. My hometown is located at the foot of a scenic mountain with a murmuring crystal-clear river in front. Groups of waterwheels by the river side produce beautiful folk songs day and night.

My father said that we have this festival runs for three consecutive years. People do not kill fattened pigs during the first and second years but only in the final year. So, the most special year is the last one, *namely* the 13<sup>th</sup> year. As you can imagine, it is not easy to see many in one lifetime. I can't remember what the last one, 13 years ago, was like. Fortunately, my village held the festival from 22<sup>nd</sup>

#### Passage 4

Most people would say that the world's tallest mountain is Mount Everest. This Mountain in the Himalayas is just over 29,000 feet high.

However, if mountains are measured a little bit differently, then the tallest mountain on Earth is Mauna Kea, in the Hawaiian Islands. Mauna Kea is only about 14,000 feet above sea level, so in comparison to Mount Everest it just does not look anywhere near as high as Mount Everest to a person standing at sea level.

Mauna Kea, however, does not begin at sea level. It rises from an ocean floor that is more than 16,000 feet below the surface of the water. This mountain therefore measures more than 30,000 feet from its base to its top, making it a higher mountain than Mount Everest.

86. The main idea of the passage is that .....

- A. Mount Everest is the world's tallest mountain  
 B. Mount Everest and Mauna Kea are located in different parts of the world

- C. Mauna Kea's base is below sea level
  - D. Mauna Kea could be considered the tallest mountain in the world
87. Which of the following is NOT mentioned about Mount Everest?
- A. Many people believe it is the world's tallest mountain.
  - B. It is part of the Himalayas.
  - C. It is over 29,000 feet high.
  - D. It rises from the ocean floor.
88. According to the passage, Mauna Kea is how far above the level of the water?
- A. 14,000 feet
  - B. 16,000 feet
  - C. 29,000 feet
  - D. 30,000 feet
89. It is implied in the passage that Mauna Kea does not seem as tall as Mount Everest because.....
- A. people do not want to look at it
  - B. part of Mauna Kea is under water
  - C. Mount Everest has more snow
  - D. Mauna Kea is in a different part of the world than Mount Everest
90. The passage indicates that Mauna Kea.....
- A. measures 16,000 feet from top to bottom
  - B. is completely covered with water
  - C. is more than half covered by water
  - D. is 1,000 feet shorter than Mount Everest

The end
